

Recommendation for HuzaX Team's Exceptional Services

To Whom It May Concern,

I am writing to express my utmost appreciation and recommend the HuzaX team for their exceptional services rendered to Bezi.Build.

Our organization is dedicated to impacting the African ecosystem, empowering one entrepreneur at a time, and building thriving businesses that contribute to Africa's economic development. HuzaX has been instrumental in transforming Bezi.Build from an initial paper concept to an impactful community with over 80 startups.

HuzaX's commitment to Bezi.Build's success is evident in its tireless efforts to interview and screen over 400 startups across the continent. Their meticulous selection led to identifying the top 85 startups, divided into two well-organized cohorts.

In addition to their exceptional work in the selection process, HuzaX contributed significantly to establishing the initial processes and communication tools necessary for the smooth operation of Bezi.Build. They participated in developing the program used during the cohorts and were essential in facilitating and guiding various relationships.

A noteworthy aspect of HuzaX's contribution was their ability to connect Bezi.Build's startups with relevant partners across Africa, Latin America, and the United States. They successfully organized office hours with venture capitalists and arranged investor pitches, significantly expanding the startups' network.

Furthermore, they played a crucial role in managing the relationships with Bezi mentors, who comprise successful unicorn founders and venture capitalists from Africa and beyond.

Given their outstanding performance and dedication, I wholeheartedly recommend the HuzaX team for similar work in the future.

Sincerely,
